### PROGRESS OF LABOR

The future of the Labor Movement, like the future of any great movement (founded on basic principles of equity and founded for the purpose of remedying unjust conditions that surround the toiler and at the same time bringing a great influence for the common good) must be judged by the work accomplished in the past; for in the consideration of the future of the Labor Movement the lamp of experience will indeed act as a guide and beacon for its future progress. It may have been possible that the thinkers and economists of the past were erroneously led into the belief that the Movement of Labor was one lasting for a day only and had no strength for that permanency which is so essential to the perpetuity of great institutions and great movements.

This belief, however, if it did exist, was shared in only by those who lacked foresight to look into the future and gauge all the possibilities of the great Movement of the men who toil. The thinkers and economists and those generally familiar with the ideals and the work of Labor in our day do not question the permanency of the Trade Union Movement. They concede that the movement of Labor is one that will be in existence as long as the industrial progress and permanency of nations is desired, as they, as others with the foresight to judge of actual conditions, realize that Industry can only be successful by a just and thorough co-operation with the men who make the progress of industry possible—the men who labor.

The principles laid down as a guide of future effort by the men of labor are clear, unequivocal and logical, and while to many the results which they desire seem unattainable, the fact remains that while the men who believe in the achievements of principles well defined and basically right and equitable strive with loyalty to the cause with which they are joined, the success of such principles are assured.

This is the position of the Trade Union Movement. It advocates well defined principles, not only along the lines of industrial progress but along the lines of social and educational progress. The platform of principles of Labor are absolutely sound and the loyalty of the men of labor to the principles of the platform is unquestioned.

Reforms of the past which have made the progress of this country along industrial, social and educational lines and which has given to the world the benefits of equal justice, were instituted by the men of labor who loyally struggled for their achievement when the public generally had hardly given to the questions at issue the attention which they so justly deserved.

We see an instance of this in the enactment of the great Australian ballot law into legislation. This reform which makes possible and protects the free and untrammelled expression of the citizen at the ballot box was agitated in the forums of the Trade Union for a quarter of a century preceding its enactment into statutory law, and the efforts of the Trade Unions in educating the people of the country to a realization of their needs and requirements were greatly hindered by bias and prejudice caused by ignorance in many cases and lack of knowledge of the Trade Union movement in others, impeding by such bias and prejudice necessary measures for remedial legislation which the Trade Union Movement espoused and advocated in those days.

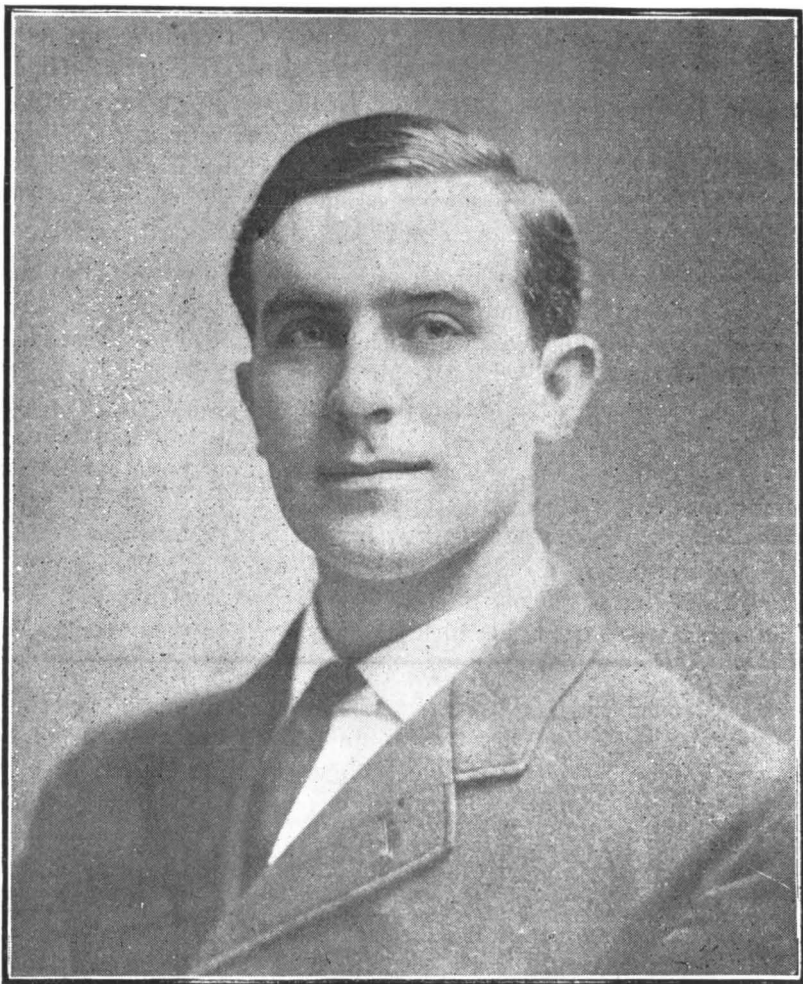

In the consideration of the problems confronting the people of nations, the impartial student investigates thoroughly before drawing conclusions. It is hoped and desired that those who wish a knowledge of the great questions incidental to and connected with the Movement of Labor as an organized industrial movement will give it that careful investigation and just analysis which its great importance deserves. It is to be hoped that the veil of ignorance and of prejudice, which exists, will be torn away and that Labor will receive from the impartial investigator and the unbiased historian that judgment which its attitude on the questions involved in its progress deserves. Men differ, and unless men did differ on the great questions of the day the possibility of bringing to the attention of people great questions and problems would not receive the attention which they deserve.

The Labor Movement has been for conciliation, for it recognizes that in the affairs of all men, particularly where the interests of an employer and his employees are in question, differences of opinion arise, and Labor believes that the interests of the employer and the employee to a certain extent bear the same relation and it is as much the concern of one as it is the concern of both that co-operation in the work of one and of both makes progress possible. It recognizes the fact that among the men of labor as well as among the men who employ labor there exists certain degrees of selfishness. It recognizes that there is a human trait among all men that bears a striking relation to self interest and selfishness, and it therefore advocates that the men of labor and the men who employ labor work in harmony to the end that equity and justice may prevail. Therefore, Labor believes in conciliation and it stands for arbitration. It advocates arbitration because it recognizes that men are human and that where they are so closely allied as employer and employee certain misunderstandings are possible. They believe that such misunderstandings can be remedied by bringing into consultation the men of Labor and the men who employ labor. They believe that when these misunderstandings become grievances that cannot be adjusted between themselves that the principle of arbitration is an equitable one and should be applied in the solution of the various

problems arising by or through such misunderstandings. Labor cannot compromise on principle. It stands for equity in the affairs of men and it demands equity and no less for itself.

---

## MEMBER ILLINOIS INDUSTRIAL COMMISSION

Chas. S. Deneen, Governor of Illinois, has appointed Grand Secretary Peter W. Collins as one of the three representatives of Labor on the Commission to investigate and report on necessary legislation for the health, safety and comfort of employes in the State of Illinois.

The appointment of this Commission was authorized by the last Legislature, and its duties will be to investigate and advise the enactment of remedial legislation for the protection of the health and lives of the workers.

The other representatives of Labor on the Commission are Pres. Edwin Wright, of the Illinois State Federation of Labor, and Wm. M. Rosell, of the Chicago Federation of Labor.

It is a fact that the necessity for legislation to protect the toilers is strikingly evident in every State in the Union, and the sacrifice of life which is a shame and menace to the future of our country is needless and must be stopped. In our own craft we are brought face to face with the necessity for such legislation. Our members follow a calling which is hazardous and dangerous in the extreme, and the skill required is of the highest order. It is therefore incumbent upon the employer to see that lives are not needlessly endangered and that the men who do the work are protected.

It should be mandatory upon all corporations—including light, power, telegraph and telephone—to protect their employees.

It will be the object and purpose of the electrical worker on the Commission to thoroughly investigate conditions and report and recommend the passage of measures for the protection of the health, safety and comfort of the employees.

---

**WORK FOR**      The permanency of republics, as proven by the history of  
**CIVIC PROGRESS**      the past, depends on the abiding faith of its people, in the integrity of its institutions, and the permanency and integrity of such institutions is made possible only by a deep and lasting interest in tis civic progress. The people of this country are fortunate in having a system of government republican in form and democratic in principle. A government founded on the belief that governments instituted among men derive their power from the governed. A government which is a government of the people in fact as well as in theory; a government whose constitution is conceded to be, perhaps, the greatest document drawn up by the hand of man; a government whose founders were men and patriots, of far seeing judgment and of the greatest integrity, who had the common welfare of the people at heart and who believed in founding a government that would last against the ravages of time. How well the founders of this republic builded is shown by the progress we have made from the beginning and the foundation upon which the structure stands is the foundation of popular sovereignty and the belief of the people in the integrity of our institutions.

Labor's work for civic progress has been incalculable; the men of labor have unselfishly and untiringly worked in concert for the common good and the general welfare of all people, and the welfare of the institutions of the country has ever been a source to which the Labor Movement directed its best effort. It believes in practical progress; it believes in building up and not tearing down; and it is doing its work well for the achievement and practical application of ideals in the civic affairs of the cities, the States and the nation.

## AN UNAUTHORIZED CONVENTION.

This Circular Letter Was Sent to Each L. U. of the I. B. E. W.

September 10, 1908.

*To the Members of the International Brotherhood of Electrical Workers:*

**FIRST:** There is to be no convention of the Brotherhood on September 15th, 1908, at St. Louis.

This notice is sent to avoid any misunderstanding on the part of members on account of a rumor and circulars to the contrary, and as a protest on behalf of the Brotherhood against the legality of any such so-called convention.

The meeting which is planned by some members for this date is wholly contrary to the Constitution, and any votes or resolutions passed at it will be without any validity, because:

(1) The method provided by the Constitution and the only method for calling a special convention is as follows:

(Article XVII. Sec. 3): "On motion of five Local Unions in good standing, no two L. U.'s to be in the same E. B. district, the place for holding the convention can be changed by a two-thirds vote of the Locals voting, each L. U. having only one vote. The votes to be decided by a two-thirds vote of its members. A special I. C. can be called in the same manner."

(2) There has been no motion for such convention by five Local Unions in good standing, each in a different E. B. district.

(3) There has been no referendum vote for it by the Locals.

As the meeting will not be a lawful convention of the Brotherhood, the expense of it cannot be paid from the funds of the Brotherhood.

As an inducement to attend this meeting, circulars have been sent out stating that F. J. Sullivan, the former G. T., has eighty thousand dollars in his possession, which includes the Convention Fund, and that he is holding this money to turn over to the convention. This statement is incorrect. The Convention Fund is now subject to the joint order of the G. S. and G. T. only, and cannot be paid out by one of them alone, and cannot be paid out by both of them together rightfully except to be turned over to the G. P. and G. T. for the purposes of a convention properly held in accordance with the Constitution. F. J. Sullivan having been removed, has now legally no part in the control of the fund.

Not only will this meeting not be a convention of the Brotherhood, but also, as many Locals do not care to send delegates to an illegal convention, it will not be a representative meeting.

**SECOND:** The pretense made by those seeking to promote this meeting is that the G. P. and G. S. are obstructing the calling of a regular special convention. This claim is absolutely unfounded.

The only action directed toward calling a convention which has been taken is as follows:

(1) At the end of February and first of March, 1908, the G. S. received requests from several Locals to submit to a referendum the calling of a special convention to act particularly on amendments to the Constitution. This appeared in the next WORKER, that for April, at page 211. Only three of these requests were from Locals in good standing in different E. B. districts, and they did not specify the date for a convention. The additional two required under the Constitution have never been received. As appears from the Constitution, these three gave to the G. S. no authority to submit to a referendum.

(2) Between July 1st and July 12th, 1908, the G. S. received what purported to be four requests from Locals to submit a call for a special convention to be held September 14th, 1908. The necessary fifth has never been received.

(3) At its meeting beginning July 15, 1908, the E. B. voted to instruct the G. P. and G. S. to call a convention. This vote was passed apparently without observing that it is the locals only, and not the E. B., which are authorized to vote a special convention.

**THIRD:** If the Brotherhood desires a convention, and think the welfare of the Brotherhood requires the large expense of one, the means of obtaining it are simple: Five locals in good standing in different E. B. districts can move for a referendum. The G. S. has no discretion in the matter. He must submit a referendum if he receives these votes. He cannot submit a referendum unless he gets them. He is not given the power to waive this requirement of the Constitution, nor can it be waived by the G. P. or the E. B.

**FOURTH:** The present attempt to hold an illegal convention at the expense of the Brotherhood without first having the question referred to the Brotherhood has resulted not from the efforts of the Brotherhood but from the efforts of the former G. T. and a few co-operators.

In brief these efforts have been as follows:

Until March, 1908, he was employed on the clerical force of the G. O. His conduct was such in this position that in November, 1907, he was notified that

his services would be dispensed with. At his request, he was permitted to remain to arrange his affairs. Instead, he occupied himself in an attempt to bring discredit on the officers who had discharged him.

As appears in the April "WORKER," the requests for a convention of February, 1908, above mentioned, show that they came from the same source, and refer to the same wrong section of the Constitution, namely, Section 5, instead of Section 3.

On March 12, 1908, a circular was sent to the members. This contained serious false insinuations against the G. P., G. S., and E. B. It was prepared in whole or in large part by the former G. T. He did not sign the circular, or, at the time, make known his connection with it. It purported to bear the signatures of the members of a committee of two locals. Affidavits have been received by the G. O. showing that with one exception these signatures were affixed without the knowledge, consent, or authority of the members whose names appeared as signers, and before they had completed any investigation.

This circular was fully answered from the G. O. on March 26, 1908.

In April, the G. T. having proved his inability and incompetence, having declined to perform his ordinary duties as G. T. to enable the Brotherhood to meet its obligations, and having declined to furnish bond, the G. P. suspended him. His removal has since been approved unanimously by the E. B., and the choice of J. E. McCadden as his successor has been approved by the E. B., and the newly appointed G. T. has given bond in the sum of \$100,000.

As appears in the May "WORKER," the G. P. called a meeting of the E. B. for July 15, 1908.

Under date of June 3, 1908, a circular was sent broadcast entitled "The Brotherhood Call," containing many false insinuations concerning the officers, and accompanied by a form of credential for a convention to be held July 27, 1908, at Springfield. This circular was instigated by the former G. T., as he has since admitted. It contained what purported to be a request from Local No. 1 of St. Louis to all locals to appoint delegates to determine whether a convention should be held.

The Constitution provides for a referendum vote by the locals, and not for a vote by delegates. This power to vote cannot be loaned to others. It must be exercised by the locals themselves.

This circular contained a statement that the requests for a convention had not been submitted to a referendum because the G. P. and G. S. each claimed

that it was not his duty under the Constitution to obtain the referendum. There is no foundation whatever for this assertion, and no such claim has been made by either. The G. S., whose duty it is, has always been ready to submit a referendum as soon as he had the power to do it under the Constitution by receiving motions from five locals in good standing in different E. B. districts.

On June 20, 1908, notices were sent to the locals and to the members of the E. B., requesting the E. B. to assemble on July 15, 1908, particularly to investigate the various insinuations which had been made and to report thereon to the locals. The G. P. and G. S. appeared before it, able and ready to meet any charges which might be made.

At an open meeting of the E. B., the former G. T. admitted that he was the author of these insinuations, but being unable declined to offer any evidence in support of them.

At the time of this meeting, there were in Springfield some 33 members from several locals, and largely D. C. officers. Some or all of these it is presumed held some of the so-called "Delegate's Credentials" of June 3, 1908, which the former G. T. had caused to be sent out. A committee of these requested the E. B. to call a convention, and the E. B., as before stated, immediately voted to do so.

The G. P. and G. S., on being notified of the action of the E. B., and being ready and willing to carry out the vote of the E. B., but uncertain of their right to do so, consulted counsel and were advised that they had no authority under the Constitution to call the convention. This opinion was published in full in the August "WORKER."

On August 15, 1908, the former G. T. warned the various banks having Brotherhood funds on deposit not to pay them out without his order.

On August 17 a suit was filed in Cleveland against the Brotherhood and its officers and others, purporting to be brought by a member of Local No. 39, the local to which the removed G. T. formerly belonged and of which he was business agent for years. In this suit it is falsely alleged that five local unions in good standing, no two of which were in the same E. B. district, requested a special convention, and that the G. S. refused to submit this request to the locals, and that Local No. 1 of St. Louis submitted the question, and that 149 out of 157 locals voted in favor of a convention. It is also falsely alleged that the regularity of this vote was approved by the E. B. It is also falsely alleged that the removal of F. J. Sullivan from office was without cause. It is also falsely alleged that there has been misconduct on the part

of the G. P. and G. S. The Court is asked to enjoin the disbursing of the money of the Brotherhood, and to order the G. S. to call a convention.

The removed G. T., wholly without authority, has purported to appear in said suit on behalf of the Brotherhood, without calling the suit to the attention of the Brotherhood or any of its officers, and has purported to consent to a decision in favor of the complainant.

A preliminary injunction restraining the payment out of the money of the Brotherhood has accordingly been granted without any notice to the Brotherhood, and the officers of the Brotherhood are prevented from using its money

to pay the obligations of the Brotherhood for which this money is provided.

The removed G. T. is in this way cooperating in, if not instigating another attempt to have an unauthorized convention by asking the Court to order a convention of this Brotherhood, without giving the locals any opportunity to exercise the referendum secured to them by the Constitution, and is preventing the payment over to the District Councils of the money due them.

Fraternally,

(Signed) F. J. McNULTY,  
Grand President.  
PETER W. COLLINS,  
Grand Secretary.

## CORRESPONDENCE.

### Detroit No. 17.

EDITOR ELECTRICAL WORKER:

Just a line to inform the brothers that work is very scarce here. The Home has just laid off thirty men in the line and installation departments.

E. G. SMITH,  
Press Secretary.

### Reno No. 401.

EDITOR ELECTRICAL WORKER:

L. U. 401, of Reno, Nev., has been in trouble with the contractors for some four months. The said contractors are endeavoring to force the open shop. This is a trouble which the Council has not been asked to take an active part in, in fact, there seems that there is nothing we can do.

I am this day in receipt of request from Vice Pres. R. A. Pittman and L. U. 401 asking that I take matter up with you, and have you publish notice that there is recognized trouble in Reno, Nevada, L. U. 401, and that Art. xiv, Sec. 8, will be invoked, and T. C.'s refused by said local during such trouble and for a period of 90 days after settlement of same.

This has the approval of Pres. Murrin, and I trust you will run said notice in WORKER as per request, and notify L. U. 401 to that effect.

Fraternally yours,

J. L. COOK,  
Sec.-Treas., P. D. C., I. B. E. W.  
Approved. HUGH MURRIN,  
Pres. D. C. 1, 3d Dist., I. B. E. W.

### Fremont No. 587.

EDITOR ELECTRICAL WORKER:

I will endeavor to say a few words for No. 587 and the first few are the sentiment of Local 587 is exactly as that expressed by Local No. 428 in the August WORKER.

Brothers, don't it make you rather tired to sit in your lodge room for an hour or more at a time and listen to the Recording Secretary read some article stating the baselessness, etc., of our Grand Officers? Our Recording Secretary has sat on the top of a 35 foot pole many a time for a half hour in the cold waiting for a five minute test, so I know he has bushels of patience, but you can hear him heave a big sigh and mutter something under his breath every time he receives a bunch of that rot which requires thirty minutes' precious lodge time to read. And while on this subject I want to state, as did No. 428, Local 587 also voted capital NO for a special convention, and want the parties stating we did to understand our position.

Now that the weather is getting cooler we ought to have some more of the brothers out to meeting. Let us all take a hand, helping push along the good cause, and we also need a few more votes of NO on such questions of holding special conventions, etc., without understanding what they are for.

Fraternally yours,

H. J. N.,  
Press Secretary.

### INFORMATION.

John B. Nowlan, of Richmond, Va., can receive very important information concerning his close relatives by corresponding with his brother, J. A. Nowlan, of Stonemountain, Ga.

Fraternally,  
S. C. MANN, F. S. 84,  
46 Clay St., Edgewood Sta.,  
Atlanta, Ga.

Bros. H. T. Baker, J. E. Sutton and Jacob Foster communicate with L. U. 450, of Goldfield, Nev., P. O. Box 439, at their earliest convenience.

WM. L. GOMMO,  
Fin. Secy.

# Report of Peter W. Collins, Grand Secretary

To the Members of the I. B. E. W., Greeting:

Fellow Workers:—I herewith submit for your attention and careful consideration report of the work and progress of the I. B. from the period ending July 31, 1905, to August 1, 1908. The progress made during that period and the results accomplished are unprecedented in the history of our organization and proves what splendid results can be achieved by the constant personal interest of each member of the organization.

## RECEIPTS

The gain in receipts of the organization has been tremendous and the financial condition of the Brotherhood today is such that each and every member should take personal pride in the work that has been done.

The total receipts for the period above mentioned were \$351,999.74, compared with the receipts of the previous three years, shows a gain of \$123,832.38.

## Receipts Three Years August 1, 1905, to July 31, 1908

Per capita .....	\$259,534 00
Initiations .....	44,052 10
Supplies .....	7,947 04
Buttons .....	2,208 75
Cuff buttons .....	183 00
Charms .....	141 50
Match Safes .....	6 75
Badges .....	305 05
Banner .....	15 00
Loan repaid by L. U. 3, New York .....	10,000 00
Electrical Worker .....	14,573 20
Dues from G. O. members .....	2,163 20
Bonds for officers of D. C. and L. U.'s .....	730 35
Charters forfeited .....	260 79
Protest fees refunded .....	9 53
Defense Fund—Donations and refund .....	1,098 80
Convention Fund—Refunds .....	46 50
District Council Fund—Refunds .....	236 60
Organizing Fund—Refunds .....	1,069 25
General Fund—Miscellaneous .....	842 94
General Fund—Advances refunded .....	1,945 30
General Fund—Special assessment .....	1 50
Interest on surplus account August 1, 1907, to August 1, 1908 .....	1,950 07
<b>Total cash receipts .....</b>	<b>\$349,321 22</b>
Interest on deposits credited by banks from August 1, 1905, to August 1, 1907 .....	2,678 52
<b>Total .....</b>	<b>\$351,999 74</b>

TABLE NO. 1

Is a comparative table of the receipts and disbursements for the past three years and shows at a glance the income of the organ-

ization by months and the disbursements by months, showing the exact balance in each fund to August 1, 1908.

Of these funds the defense and organizing are not provided for under the amended Constitution which went into effect January 1, 1906, and their replenishment after the 31st of December, 1905, was from the per capita payments for months previous to January, 1906, being received after that date to October 31, 1906, and on such receipts of per capita (for months previous to January, 1906,) the old Constitution applied.

For instance, if a local union sent a per capita sheet to the general office in March, 1906, and part of the per capita payments on that sheet were for months previous to January, 1906, that portion of said payments, as provided under the old Constitution, were applied to these funds, thus netting the defense fund on account of such payments \$2,429.59 and the organizing fund \$4,859.08.

## DISBURSEMENTS

The total disbursements for the three years were \$311,465.91. This amount includes every disbursement of the Organization as shown by itemized voucher. Of this \$311,465.91 the sum of \$91,766.47 was paid from the D. C. Fund by warrants properly drawn and signed by the Secretary-Treasurer and President of the various D. C.'s.

The sum of \$20,592.16 was disbursed from the organizing fund provided for under the old Constitution.

The sum of \$27,698.30 was disbursed from the Defense Fund as provided for under the old Constitution.

## Disbursements August 1, 1905, to July 31, 1908

Total.....	\$311,465 91

## PER CAPITA

In fact the total per capita received during the past three years exceeded by almost \$16,980 the total receipts from all sources for the previous three years, and in comparison with the per capita tax for the preceding three years shows a net gain of \$85,710.00.

## INITIATION

Under the provisions of the old Constitution the amount remitted to the G. O. on all initiations was \$2 for each member initiated,

while under the new Constitution, where the initiation fee charged by the L. U. was \$5 or less, the amount remitted to the G. O. was \$1; where the initiation fee was over \$5 the amount remitted to the General Office was \$2.

Of the \$351,999.74, the sum of \$4,628.59 was received as interest on bank deposits during the three years from July 31, 1905, to August 1, 1908, as compared with the total of \$477.49 for the preceding three years, showing a net increase in interest alone over the preceding three years of \$4,151.10.

## HIGHER DEATH BENEFIT

In my last annual report I touched upon the advisability of the Organization paying a higher benefit and suggested that this question be given the careful consideration of the membership. I am still of that opinion and am firmly convinced that plans could be carried into execution (with a slight additional maintenance expense), that would not only add to the protection of our membership and those dependent upon us, but would be the means of making our Organization a most potent and permanent factor in the labor movement, and it would, I am positive, be the means of greatly increasing our membership and maintaining it.

## INSURANCE

It must be evident to thinking men that if other Organizations can maintain an insurance system worthy of the name then the International Brotherhood of Electrical Workers can do likewise. I find from investigation that organizations having an insurance system are not only successful, but that such system aids materially in their progress.

ORDER OF RAILROAD TELE-  
GRAPHERS

The Order of Railroad Telegraphers has an assessment insurance which is giving good results, as will be seen from the following statement of Grand Secretary-Treasurer Quick of that organization:

"Replying to your queries I will say that we issue certificates for \$300, \$500 and \$1,000, the assessments of which are 20 cents, 30 cents and 60 cents respectively. An applicant under 45 years of age is eligible to any one of the three series if his physical condition is satisfactory. An applicant over 45 years of age and under 50 is eligible to \$300 and \$500 series, and an applicant over 50 and under 60 years of age is only eligible to the \$300 series. An applicant over 60 years of age is not eligible to membership in the Mutual Benefit Department.

"The Mutual Benefit Department is conducted so far as the finances are concerned, entirely separate from the order, but it is managed by the president and grand secretary and treasurer and board of directors of the order. They are ex-officio officers of the Mutual Benefit Department. The order has local lodges through which members pay their dues, but all assessments in the Mutual Benefit Department are remitted direct to this office by the members. The assessments in that department are due monthly, and as you will find by Article 15, in the month of December, twelve assessment slips are mailed to each member, one for each month of the succeeding year. The Mutual Benefit Department has been very successful, it being organized on January 1, 1898. Membership is restricted to members of the order and forfeiture of membership in one also cancels membership in the other. After paying all approved death claims on June

20, 1907, there was a surplus on hand in the mortuary fund of \$184,985.68 in that department."

## DEATH CLAIMS I. B. E. W.

Table No. 4 is a comparative table by months and years for the past three years and the preceding two years of the amount paid in death claims.

TABLE NO. 4

			May, '08	9	900 00
			June, '08	12	1,200 00
			July, '08	11	1,100 00
Totals.		27,000 00	Total..		28,300 00

It will be seen from an analysis of these tables that while the amount paid in death claims for the previous two years was \$27,000, the amount paid during the past three years was \$28,300.03. The total number of claims paid during the previous two years being 270 and the past three years 283.

It was my unpleasant duty during the past three years to reject a number of illegal death claims. While I regret that the action taken was necessary, the fact remains that the Constitution clearly defines the duties of the Grand Secretary on death claims. Of the number of claims rejected, I believe that several were occasioned through the negligence of financial secretaries in not remitting to the G. O. dues which were paid to them by members. While, unfortunately,

such negligence does occur, there is only one way in which it can be eliminated, and that is that each individual member of the Local Union take sufficient interest in the affairs of his Local Union to see to it that the Financial Secretary complies with the Constitution and remits to the G. O. each month; also to see that the duplicate per capita sheet, which has been verified at the G. O., is posted for inspection.

I am also attaching hereto a statement of death claims during the past three years. This statement gives the name of the deceased member on whom death claim was paid, the Local Union to which he belonged,

his age at death, date of initiation, date of death, length of membership in the Brotherhood, cause of death, amount of per capita received from him, and amount of death benefit paid. It will be seen from a careful examination of this statement that the average age at death was 28. The number of members who met death by accident caused by shock and electrocution was 75; the number who died from consumption (tuberculosis), 55. It will be seen that of the total of 283 death claims, 130 were on account of electric shock and tuberculosis. The remaining 153 comprised various causes.

\* Submitted to the E. B.

**ELECTRICAL WORKER**

As a means to a better understanding of those questions which interest us particularly as a craft, and generally as members of the great body of Trades Unionists, the Electrical Worker is of value; and to maintain its standard and success, as such a medium, should be the aim of each member of the Brotherhood. In the conduct of the Worker I have endeavored to make it such a medium, and if I have failed to have it merit universal approbation, the fault lies not in the desire. My policy has been to give the members a journal that would interest and be of practical service to them. I have endeavored to secure only such matter that would be of educational value.

It was necessary on many occasions to refuse to insert communications that were partisan and intemperate. This, of course, was necessary, as the Worker cannot be a medium to vent either personal animosity or partisan strife. During the past three years the total number of special articles appearing in the Worker was 750; total number of Local Union letters inserted, 1,342; total number of editorials was 156, making a total of 2,248 appearing in the Worker for that period, or an average of 62 per month.

**PRINTING OF WORKER**

The total cost of printing the Electrical Worker during the past three years was \$17,903.39, or an average per month of \$497. The total cost of printing the Worker for

the previous two years was \$22,761.52, or an average cost of \$948 per month; therefore, the amount saved on the printing of the Worker itself was \$451 per month.

**MAILING THE WORKER**

The total cost for mailing the Worker the preceding two years was \$1,415.37, or an average of \$58.97 per month. The total cost for mailing the past three years was \$1,472.99, or an average of \$49.33 per month, showing a net saving on mailing of \$18.04 per month. There has been an increase in the cost of mailing the Worker to Canada during the past year on account of differences between the Canadian and United States postal authorities, and this occasioned an increase in the rates there on the Workers going into Canada of 3 cents per pound.

**MAILING LIST**

It has been my endeavor to keep our mailing list in as perfect shape as possible and to secure increased efficiency in this respect I installed in the General Office a stencil machine which cost \$75. By the use of this machine we are enabled to keep our mailing list up to date at a nominal cost, as our stencils, before we put the machine in, cost \$10 per 1,000, and we now make them for \$1 per thousand, making a very material saving on stencils alone during the year, and not only paying the original cost of the machine itself by this saving, but perfecting the system at the General Office.

**Statement of Cost of E. W. for Five Years, August 1, 1903 to August 1, 1908**

\* Assumed duties of G. S. November 1, 1905.

## WRAPPERS

The wrappers that are used to mail the Workers are preferable to an envelope. The wrappers are bought in 1,000-pound lots and are paid for by the pound. We also use Manila wrappers of the same kind in which we mail our Worker for carbon copies of our correspondence, instead of using the old form of copy book. These wrappers previously cost the Organization about 60 cents per 1,000, while the average cost for the past three years has been 20 cents per 1,000, with the additional convenience of their use in our correspondence.

## ADVERTISING

The subject of advertising, with particular reference to the policy pursued, character of matter inserted, profit and loss, etc., apparently excites but little interest in the average member of trade organizations. This to me seems a mistake, for if ever a subject deserved particular attention from the rank and file of the labor movement it is this very subject of advertising, and incidentally advertising agencies and solicitors. It is a fact that not only has the movement and its friends been imposed upon by fakirs in the guise of advertising solicitors, advertising agencies, etc., but the odium of their methods in many instances has reacted to our detriment. Each member, therefore, should take an interest in this question, and give it careful consideration.

## EXPIRATION OF CONTRACT

Since the expiration of the contract with the Morrison Advertising Agency, January 15, 1906, the advertisements inserted in the Worker have come directly through the General Office without the payment of commissions. The contract which was in force with the advertising agency called for a 50 per cent commission on all contracts secured, and even though contracts came directly through the General Office without any intervention whatever of the advertising agency, the agency received its 50 per cent of the face value of the contract just the same as if it had secured the contract directly from the advertiser. It was also stipulated that the agency was to receive 50 per cent on all renewals, this clause to remain in effect one year after the contract of the agency expired. Also to receive 50 per cent on all subscriptions secured through the agency. The International Brotherhood to pay upon acceptance for the contract from the advertiser and to assume all liability in the collecting of claims, etc. In a great many cases the actual cost alone of printing the ad. in the Worker, not including the commission paid for securing the ad., was more than the Brotherhood received for its insertion. Ads. that should never appear in a labor journal were solicited.

## LOSS

Contracts which the Brotherhood was unable to collect upon occasioned a loss of about \$2,500 while the contract was in force; \$1,400, the face value of the contracts on account of being unable to collect the same; \$700 commission paid to the agency and about \$400, the cost of the printing of the ads. It is hardly necessary to say that the journal of a labor organization should be conducted as an educational medium for its membership, and its subserviency to any other interest, no matter of what character that interest may be, is an injustice to the membership. While I am a firm believer in legitimate advertising and am fully aware of its possibilities, I am firmly convinced that it would be far better to conduct the journal of a labor organization without any ads. whatever than to allow ads. of a questionable character to appear therein.

## FAKE ADVERTISING

It cannot be denied that not only are the great magazines of the present day, but the newspapers also, are being used by advertising promoters merely to deceive the people, but it is a fact that these same promoters have no limit to the extent to which they will go or the nerve they display. We see one of the most striking examples of this in the case of Mr. Post, of Gripe-Nuts fame. My policy, therefore, relative to advertising in the Electrical Worker has been and will continue to be, while I have charge of it, along such lines as will fully protect our membership against fake advertisers of every character.

## LEGITIMATE

I believe, however, that legitimate advertising should be encouraged and shall do all in my power to aid in its encouragement. I am opposed to paying to solicitors and advertising agencies a premium for securing advertisements, for I believe that such solicitors and advertising agencies have to a considerable extent brought discredit on the labor movement.

## DISTRICT COUNCILS

The District Councils are doing a great work for the cause of organization. Since the D. C. plan went into effect there has been applied to the credit of the D. C.'s a total amount of \$107,803.05 and there has been drawn against that amount by signed warrants of the various D. C.'s the sum of \$91,766.47, leaving a balance of \$16,036.58 on August 1, 1908. The number of D. C.'s is 18. Eight in the first G. V. P. district, seven in the second G. V. P. district and three in the third. The receipts and disbursements of each District Council were as follows:

## District Council Statement Jan. 1, 1906, to July 31, 1908

## COMPLETE FILE OF WORKER

After considerable research I have been enabled to secure a complete set of the Electrical Worker from the beginning of its publication, and have had them bound in volumes. These have been of value as a means of reference. I have reserved each month a sufficient number of copies of the Electrical Worker for the purpose of binding at the end of the year, and allowing such members as desire them to pay for the cost of binding and expressage, so that if they wish they can secure a bound volume. I believe our journal compares favorably with other labor journals, and in my last yearly report comparative figures as to cost, pages, circulation, advertising, etc., are given in detail.

## REFERENDUM

During the past three years there have been submitted to referendum—first, the Constitution as amended by the Louisville convention. The vote on the adoption of the Constitution totaled 9,123–7,512 in favor to 1,610 against. The vote for the convention city showed a total of 7,003 cast—3,744 votes for Toronto, 3,261 for Los Angeles. On the question of the removal of the General Office the total vote cast was 9,086–5,769 for Springfield and 3,317 for Indianapolis. In June, 1906, there was submitted an amendment to Section 5, Article 14. Total vote cast on this proposition, 6,200–1,443 in favor of the amendment and 4,557 against the amendment. In April, 1907, there were submitted to referendum two amendments. One to Article 15, one to Article 26. The total vote cast on the amendment to Article 15 was 1,900. Of this number 984 was in favor and 916 against. On the amendment to Article 26 there was a total of 1,890 votes cast—1,220 for the amendment and 660 against the amendment, showing a total vote on the six propositions submitted of 35,193, or an average vote on each proposition of 5,865½ votes on each proposition.

## COST OF

The total cost of printing referendum ballots, circulars and return slips on these referendum propositions was \$129.35. The cost for expressage and postage on ballots sent to Local Unions by the G. O. was \$90, making a total cost to the I. B. E. W. for the six referendums submitted of \$219.35, or an average cost of \$36.57 per proposition submitted, less than 1 cent for each member voting.

The labor movement stands for the initiative and referendum in the affairs of government and it seems to me that a greater interest should be manifested by the individual member when this question comes nearer home to him in his Local Union. It is only by manifesting a deeper interest in questions that are material to our progress that success is achieved and it seems to me at least that the referendum question does not receive that attention which its importance so justly deserves.

## THE TRADE SCHOOL

There is one question which, to my mind, is deserving of careful consideration and study, and that is industrial education. It is a recognized fact that this question is coming to be of moment in its application to conditions of labor in general and the labor movement in particular. The importance of the question itself cannot be overestimated and has particular significance to our craft.

In the consideration of this question, as

in all others of importance that have a particular relation to the Trade Union movement, there are a number of apparently disinterested advocates of a special kind of industrial education, and the recruits from the schools they advocate would be used in times of difficulty.

Industrial education is a great question and it deserves the best thought and effort of the men of labor.

## CONSTITUTION

After the Constitution was adopted by the convention and ratified by referendum vote, I deemed it advisable, after having same printed, to secure electrotypes for the printing of future issues. These electrotypes were secured at a nominal price and have saved in the printing of Constitutions during the past three years about \$600. Such amendments as from time to time may be adopted can conveniently be inserted without deteriorating the value of the electrotypes. The Executive Board have authorized me to have Constitutions printed in French. This will be done as early as possible. As to the Constitution itself, I believe it is rendering, under its present provisions, good service, and my suggestion to the members would be to see that it is properly lived up to in spirit and in letter.

## SUPPLY DEPARTMENT

After assuming the duties of Grand Secretary I found it necessary to establish a supply department, as the Organization was growing rapidly and orders for supplies increasing. Also to make possible the systematizing of such work that proper records of supplies purchased, sent free, etc., might be recorded. It was, therefore, necessary to have special blanks and record books devised, which was done and today the system is in excellent condition and the records are permanent. It has been my endeavor to secure for the supply department such supplies as will give the best service. In buying supplies, as in all other purchases for the G. O., I have requested that estimates be furnished, and before orders are given for purchases such estimates must be received.

## DIVISION OF RECEIPTS

As the Constitution states that 50 per cents of all receipts other than per capita shall go to the general fund and 50 per cent to the reserve fund, it is evident that an amount equal to twice as much as was paid for supplies must be received. As the cost of supplies was originally paid from the general fund this cost must be reimbursed to the general fund, so that the general fund will not be unequally depleted. For example, for an order for supplies, the G. O. pays \$100, and receives for the same \$150. Of this \$150, as per the Constitution, \$75 goes to the Reserve Fund and the remaining \$75 to the General Fund. It is evident at a glance, therefore, that the General Fund has paid out \$100, and is reimbursed for \$75, or an unfair depletion of \$25. Therefore, it is necessary that the system should be so regulated and so devised to meet all obligations of this department and provide a surplus for the Reserve and General Fund, which it is doing, as will be seen from an analysis of the figures. It will be apparent from the following statement that the policy of requesting estimates is necessary to properly conserve the interests of the I. B., as the following bids give an idea as to the variance in estimates submitted for the same quality and quantity furnished:

Estimates furnished on the following supplies:

Comparative estimates on same quantity and quality.

From an analysis of the figures relative to cost of supplies during the past three years in comparison with the cost of the previous three years a great difference is evident. During the past three years the printers have reduced the hours from nine per day to eight, and the cost therefore to

the purchaser of printing has increased, as has also the cost of materials. This table becomes more interesting, however, from the fact that the saving on supplies alone has been tremendous during the past three years in comparison with the previous three years:

Supplies.	What We Pay. Average.	Previously Paid.
Minute books.....	30c each	75c and \$1 each
Roll call books.....	17½c each	37½c each
Treasurer's cash book.....	25c each	40c each
Warrant book.....	12c each	20c each
Per capita blanks.....	\$48 per 10,000	\$160 per 10,000
Ledgers (200 pages).....	45c each	\$1.25 each
Ledgers (400 pages).....	\$1 each	\$2.25 each
Day books.....	25c each	50c each
Traveling cards.....	\$48 per 10,000	\$75 per 10,000
Letter heads (G. O.).....	\$32 per 25,000	\$75 per 25,000
Due cards.....	\$4 per 1,000	\$7.50 per 1,000
G. S. reports.....	\$81 per 5,000	\$260.29 for 500
Our report, 24 pages.	Previous report, 12 pages.	

### SUPPLY RECORD

Attached herewith is shown the forms of the permanent supply record. The order slip which is shown herewith is made out

in duplicate, one copy being sent to the L. U. and the other being kept in the files at the G. O.:

(See Table next page.)

Total	.....	.....	.....	.....	.....	.....	.....

There has been furnished free by the G. O. 180 sets of books to new local unions, 37,114 Constitutions, 37,114 due cards, on which, of course, no revenue was received, as it is

provided for in the Constitution that each new member is entitled to Constitution, due card and working card without cost, and each new L. U. is entitled to set of books and seal without cost.

### COMPLAINTS FROM L. U.'S

There have been, on many occasions, complaints received at the General Office that secretaries of Local Unions in good standing have failed to answer correspondence addressed to them. In such cases we have endeavored to adjust grievances and misunderstandings. There are, however, many secretaries who fail to comply with the provisions of the Constitution as to sending in financial reports monthly.

### DIRECTORY

Another source of annoyance has been keeping a correct directory of Local Unions up to date for the reason that secretaries fail to send in a proper list of the officers, even though directory blanks have been forwarded to them to be filled in and returned to the G. O. This neglect has occasioned a great deal of annoyance, not only to the G. O., but to the membership at large, for it is absolutely necessary that if a directory is to be printed in the Worker such directory should be correct, and the only way in which such directory can be made of service is by secretaries forwarding to the G. O. proper lists of all changes of officers of the L. U. My experience has been that the great majority of secretaries endeavor to do their duty, and to this end they should be encouraged by the members of the Local Union.

### EXECUTIVE BOARD

The number of propositions that have been referred to and acted upon by the E. B. are as follows:

	King.....	McLaughlin.....	Godshall.....	O'Connor.....	Fitzgerald.....	Graham.....	Lofthouse.....

The progress of the Local Unions generally has averaged high, and a steady permanent gain has been made by most every Local Union in the Brotherhood.

### LETTERS

Complaints are also forwarded to this office occasionally, stating that letters sent are not answered as quickly as they might be. Our endeavor has been to answer, as far as possible, all letters the day received. Many secretaries, however, have a habit of either dating their correspondence back or

carrying their letters in their pockets and failing to mail same and then blaming the G. O. for negligence. Perfection in any system, whether it be in the trade organization or in a business institution, is the result of co-operation. By co-operating with the G. O. in an endeavor to properly transact the business of the Brotherhood, Local Union secretaries can render great service. No system is perfect and mistakes have and will occur, but the best way to remedy mistakes is by calling the same to our attention, so that they may be corrected.

**TABLE NO. 12**

Table No. 12 is a comparative membership table from year to year and demon-

strates in a most favorable manner the rise and progress of our organization.

**Approximate Table Membership I. B. E. W. to August 1, 1908**

The comparative table of membership shows at a glance the advance and progress of the Brotherhood since 1891, and the gain during the past three years is remarkable.

**NEW MEMBERS INITIATED**

The members initiated during the past three years were approximately 41,200, or more than two-fifths of the whole number of members initiated since the beginning of the Brotherhood in 1891. It will be seen from an analysis of the following table, as shown by months and years from 1891 to 1908, that the total number of members initiated in

the Brotherhood has been over 89,199, the increase during the past three years being remarkable. The average number of members carried on account of extension of per capita and remission of per capita by E. B. was about 1,000 per month. A large part of this per capita has been received since the close of the fiscal year.

**Number of New Members Initiated, 1891, to August 1, 1908**

### FINANCIAL CONDITION

The financial condition of the I. B. is excellent and its resources are a splendid assurance for its future progress, the total resources being \$99,484.44.

### INTEREST

The money deposited earns interest at the rate of 4 per cent per annum, and has added, as has been previously stated, the sum of \$4,628.59 for the past three years. Under Section 1, Article 21 of the Constitution, the Grand Secretary is required to deposit all monies received from Local Unions, giving his receipt for same, and after entry is made on the books to remit the same to the G. T. at the end of each month. Under this system there is a loss of from \$400 to \$600 in interest alone each year. It was determined, after a consultation with the Grand President, that it would be in accord with the Constitution for the Grand Secretary to deposit his daily receipts in the name of the I. B. E. W., subject to the joint check of the G. S. and G. T., for the expenditures of the I. B. By this arrangement this average of from \$400 to \$600 in interest per year is saved and has been added to the funds of the Brotherhood. The interest on the daily balance on this account has netted the Brotherhood an additional \$100 per year. The funds as deposited secure the greatest protection to the Brotherhood and material aid to its revenue.

### SYSTEM

Since assuming the office of Grand Secretary I have endeavored to establish a system that would be permanent and progres-

sive and meet the needs and requirements of the Brotherhood for many years to come. Naturally considerable effort was necessary to devise such system and, as in all institutions, it has taken time.

### CARD SYSTEM

The installation of the card system has greatly assisted towards efficient service, and not only makes a splendid and reliable permanent record, but saves considerable work.

The per capita membership card devised for the purpose of carrying the complete record of each individual member of the Brotherhood, carries the record of said member for 24 years and takes the place of the cumbersome per capita ledgers previously in use, which only carried a record of four years. When the old ledgers were in use it was necessary when transfers were made to enter the name of the brother transferring on another ledger, thus adding greatly to the work in posting and making confusion in the records. For example, if a member made many transfers his name would appear on the ledgers for the number of transfers he made, thus if he transferred ten times his name would be entered ten times. The present card, when transfer is made, is simply shifted to the card file containing the Local Union records of the L. U. in which the member is transferred and on the transfer record card, which carries a record of all transfers for the lifetime of the member, a record of transfer is made, thus giving a complete cross reference and showing at a glance the number of transfers from local to local that each member has made while in the Brotherhood.

This card is printed on both sides.

These cards were made and printed for the I. B. E. W. and bear the label of the Allied Printing Trades Council. The cost of printing the cards and furnishing the stock was far less than the card systems concerns

wanted for card stock alone.

The alphabetical file card not only gives an alphabetical record for reference, but also gives the name, age, card number, date initiated, etc.

**PROTECTION**

It is impossible, therefore, under such system for errors to occur without being found at once, for in the first instance the Grand Secretary receives and tabs remittances, checking clerk verifies per capita sheets with the records, and after such verification has been made, stenographer makes out the body of the receipt, showing the exact remittance. These receipts are then signed by the Grand Secretary, and must balance with the daily bank deposits, thus giving a complete check against error. On the reverse side of the receipt appears a list of instructions for financial secretaries as above.

Company, in its report, states: "After that date (11-1-'06) a triplicate receipt was adopted, two copies remaining on file, one sent to the Local Union. The items on receipts from the above date were, therefore, checked with the said receipts, which are filed numerically and in order. The footings for the entire period were also verified. In this comparison and footing not a single error was discovered, and those in charge of these books are to be commended for accurate work."

**AUDIT COMPANY**

Commenting on this receipt the Audit International Brotherhood of Electrical Workers

The voucher check, as herewith shown, gives a complete and accurate record of all disbursements of the Brotherhood.

(Reverse Side.)

When such remittance is received receipt for same is then forwarded and the record entered at the G. O. for the date of the receipt of the per capita sheet, thus fully protecting the interest of all members whose names appear on the per capita sheet. For instance, if a sheet is received at the G. O. on the 20th of the month it is stamped received that date and turned over to the checking clerk. If the checking clerk, after comparing same with per capita card record, finds that there are skips of per capita on the same the Local Union Financial Secretary is notified to remit to cover said skips. If such remittance is received say on the 5th of the following month receipt is forwarded for the date that balance of remittance is received, but as aforesaid the entry is made on the per capita card record for the original date of receipt of per capita sheet which would be the 29th ult.

## ERRORS

If errors appear on the per capita sheet the Financial Secretary is notified to promptly remit sufficient to cover such errors, so that the sheet will properly balance.

This fully protects the member from any negligence or any errors on the part of the Financial Secretary, and at the same time assists in making an exact permanent record. Per capita have been checked and posted to \$89.464 months card records during the past three years.

Per capita sheets, after being checked and posted, are filed in order of receipt and by Local Unions in filing cabinets. This gives an opportunity for ready reference and keeps the sheets in splendid condition.

The transfer cases in use at the G. O., which take the place of the old transfer boxes, gives an opportunity for immediate reference to all correspondence transferred.

## Bossert Boxes

To get down to figures there's a saving in labor over cast iron boxes of over five cents a hole every outlet put in a Bossert box. That means a reduction in your estimate figures of about \$1.20 for every dozen boxes used. Bossert Boxes have hermetically sealed outlets, the plugs of which can be removed with one blow of a hammer. There remains a hole as smooth and round as a steam die can cut it.

You can figure still closer because you need allow nothing for breakage. Being made of drawn steel, Bossert Boxes stand the hammering, the straining of pipes and the setting of buildings without a crack.

If your competitor uses Bossert Boxes, you must, to meet his figures. If he does not, you can obtain a big advantage by their use. Write for detailed description.

**Bossert Electric Construction Co., Utica, N. Y.**

## World-Wide Distribution

There is no mistaking the superiority of a typewriter that, in 17 years, has built up a market in every part of the civilized world. This international endorsement of

## The Smith Premier Typewriter

proves our right to offer it to you as the world's best typewriter. Write us or any Smith Premier branch for a detailed description of its advantages.
